Mouse 1: Hey Isaac, Why did the earthworm cross the playground?

Mouse 2: To get to the other mudslide! *(squeaky laughter)*

Hey, Ishaan, what do worms use to leave messages?

Mouse 1: Com-POST - it Notes! *(squeaky laughter)*

Worm 6: Yeah yeah yeah ~ you mice are SERIOUSLY outnumbered. Did you know that there can be up to ONE MILLION earthworms in just one acre of land?

Worm 7: And even though they don't have eyes, worms can sense light and they move away from it. That's why you don't see us onstage very often!

Worm 8: Did you know most earthworms can live to be 15 years old?

Some larger worms can live even longer up to 50 years old!

Worm 9: And most importantly, worms are very loving creatures, some of us can have FIVE HEARTS!

All: Awwwwwww!

Little Miss Muffet: Okay! Okay! Worms are okay! It's the spiders that give me the creeps, anyway!

Child 4: Oh yes! Oh yes! I know what you mean. Spiders are the scariest things I've ever seen.

Child 5: Some are big and some are small. As for me, I'm afraid of them all!

Little Miss Muffet: Please, anyone! Can somebody hide me? Whenever I sip cider, a spider sits down beside me.

Child 6: Well, you better keep moving. That's all I can say, 'Cause a web full of spiders is on their way!
